40. (Canceled).

41. (Canceled).

42. (Canceled).

43. (Original) A wireless communication system, comprising:

a first wireless telephone subscribed to receive one or more services from a wireless service provider; and

a second wireless telephone sharing at least one service of the one or more services with the first wireless telephone.

44. (Original) The wireless communication system recited in claim 43, wherein the second wireless telephone is subscribed to receive one or more services from a second wireless service provider.

U.S. Pat. App. No.: 09/971,080  
Atty. Docket No.: 006004.00004

45. (Original) The wireless communication system recited in claim 44, wherein the second wireless service provider is different from the first wireless service provider.

46. (Original) The wireless communication system recited in claim 45, wherein the first wireless service provider cooperates with the second wireless service provider to share the at least one shared service with the second wireless telephone.

47. (Original) The wireless communication system recited in claim 44, wherein the first wireless telephone and the second wireless telephone share a single wireless service plan administered by the first wireless service provider or the second wireless service provider.

48. (Original) The wireless communication system recited in claim 44, wherein the first wireless telephone and the second wireless telephone share a single billing report under the single wireless service plan.

49. (Original) The wireless communication system recited in claim 48, wherein the second wireless service provider is different from the first wireless service provider; and

revenue obtained under the single wireless service plan is divided between the first wireless service provider and the second wireless service provider.

50. (Original) The wireless communication system recited in claim 43, wherein the first wireless telephone is a personal wireless telephone and the second wireless telephone is a vehicular wireless telephone.

51. (Original) A method of sharing wireless telephone service, comprising:  
subscribing a first wireless telephone service to receive one or more services from a wireless service provider; and

arranging for at least one of the one or more services provided to the first wireless telephone to be shared with a second wireless telephone.

52. (Original) The method recited in claim 51, wherein arranging for at least one of the one or more services provided to the first wireless telephone to be shared with a second wireless
